Installation instructions

GB

Reference:

The following information must be reviewed before beginning the assembly:

The installation instructions are to be thoroughly read.
The installation should be carried out by qualified personnel with the relevant technical knowledge.
The vehicle manufacturers' current technical notices and information on retrofitting must be followed.
The removal and replacement instructions found in the current repair manuals must be followed.
It must be ensured that the vehicle is technically suitable for the installation of a trailer hitch.

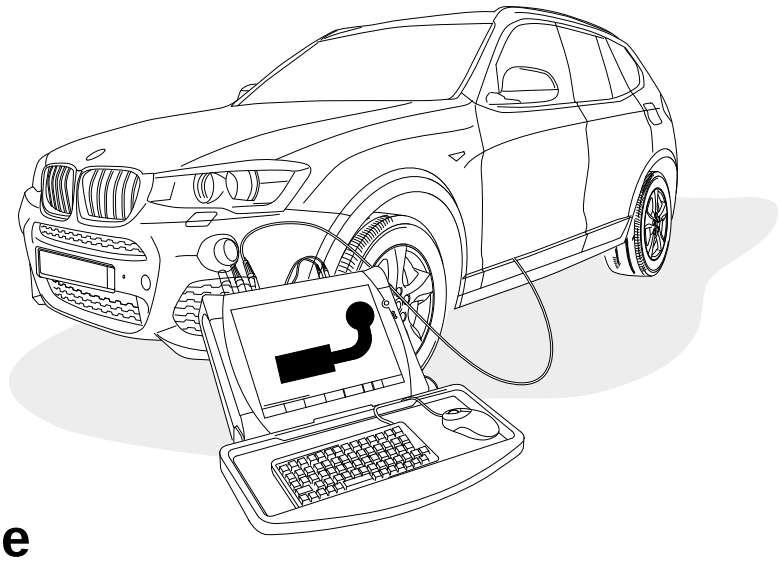
27 CODING



BMW Service ISTA/P
Initialize Trailer Module

GB

Please effect coding as follows:

- Connect computer to vehicle
- Start ISTA/P
- Click “Modification / Upgrades”
- Scan Action plan
- Click „Coding (Ethernet)“
- Scan Action program follow-up
- Final report checking

After the effected connection, the rear park assist system will also automatically be deactivated in trailer operation!
