

**NEW!**

LightMate™

The bigger, brighter brother to PlateMate is here! Where a rear-of-car bike carrier obscures both the vehicle's number plate and rear lights, LightMate has it covered.

Holds your number plate safe and sound to the back of your bike rack or mounted bike, with easy-on velcro strap fittings.

- Ships as two halves in the retail carton for easier on-shelf display and freight. Assembly takes only two minutes.
- Works with AU accessory and NZ supplementary number plates, as well as EU-style plates
- 7-pin flat plug as standard
- Robust injection moulded plastic construction
- Supplied with hook-and-loop straps to hang LightMate off the carrier or rear-most bicycle
- Ships either as a single unit, and also available as a 10-buy (full outer carton).

Available: December 2019
Category: Bike
Sub Category: Accessory
Part Number: 9802701
Retail Barcode: 9420059909559
Outer Barcode: 19420059909556
